

Uses and Benefits

1. **MOBILE STORAGE BENEFITS TO SAVANNAH/CHATHAM RESIDENTS.** Time, convenience and cost savings realized for all incomes. The elderly and physically challenged benefit because you load it once and unload it once, not so with self storage or full service movers.

2. **MILITARY MOVING OR DEPLOYMENTS.** They load the storage unit, we move or store it for them, then bring it back when they're ready. Oftentimes the wife is left to do this alone, so having extra time to load & unload at ground level, and not having to drive a truck is helpful to her.

3. **HOUSEHOLD MOVES AND STORAGE.** Besides the conveniences above, our service is less expensive than a full service move. No need to rent and drive a truck to access self storage. The elderly and infirmed, as well as the general public, are looking for convenience and savings.

4. **DECLUTTERING/STAGING HOMES FOR SALE.** Load what you want to save in a Go Mini and we'll store it for you. If want to dispose of excess furniture and belongings, load that into another Go Mini, we'll sent it to auction for you. You get 70% of the proceeds.

5. **BUSINESS MOVES AND STORAGE.** With businesses contracting or expanding, either seasonally or for economic reasons, mobile storage gives them the flexibility and benefits above. Moving or storing inventory, fixtures or an entire location is easier and less expensive.

6. **CHARITIES BENEFIT.** We give discounts to charities for fund raising storage needs.

7. **RENOVATIONS.** Residents improving their homes, new floors, renovations use mobile storage. It's easier with furniture out of the way and supplies/materials be securely kept on site.

8. **EMERGENCIES.** After a flood, fire or storm damage, we respond to help the homeowner or business. They are often distressed by the event, but we provide them with a safe secure place for their most important belongings while the cleanup and restoration work begins.

9. **DISASTER RELIEF.** Go Mini's Savannah is registered with GSA and CEMA to assist with temporary storage needs in case of a disaster.

10. **CONSTRUCTION.** During construction, to secure and store valuable materials, appliances and fixtures is paramount. The unit can be part of the building permitting process.

11. **SUPPLIERS TO CONSTRUCTION.** Load high value and or perishable supplies, tools, fixtures and materials for your contractor customer in our unit at your site. When the order is complete, put your lock(s) on it and we'll deliver it complete and secure to your builder customer.

12. **RESIDENT'S CONVENIENCE.** The resident or businessman only loads it once, we move it, store it or it stays on site. They unload it only once while we do the driving.

13. **LOW COST.** Residents who can't afford a full service move and or storage, or to rent and drive a truck to self storage, can save money and time with mobile storage.

13. **VALUE,** we are locally owned and operated. We pay local, state and federal taxes. Our services give a financial and logistical value to our residents. Moving, storage, renovations, logistical operations and emergency support are how we contribute to our community with an easier, lower cost solution.

Go Mini's Savannah, One Dixie Street, Port Wentworth, Georgia 31407, (912) 658-6360
